

A/PR

10 June 1971

Chief, D/A

Activation of Intelligence Working Group.

1. Attached is a draft of an IAC directive prepared by the IAC representatives on the Intelligence Working Group. It is proposed to submit this to the IAC through proper channels at its next meeting.

2. Attached also is a draft of the proposed terms of reference of the Intelligence Working Group which will be considered at the first meeting of the Group Thursday, 19 June.

3. The delay in the preparation of the documents and the activation of the IAC is due to delay by the IAC agencies of the Armed Forces in working out the terms of their participation. Now that it is accomplished, we feel that the results are gratifying. Existing policies, protocol, and directives have been observed and at the same time the Group has been custom-built to meet the requirements of the EMAC structure.

4. Copies of the IAC directive and the terms of reference have been submitted to OIC.

5. The success of CIA's participation and guidance in this undertaking will depend on the timely support of the various components of OMR and CIA which will be called upon to contribute.
